

Dear Parent/Carer,

This has certainly been a term and year like no other. We were really pleased that we could open our doors fully in September to welcome back all our students. We have put measures in place to keep our staff and students as safe as possible and this has meant having class bubbles. It has been difficult for our students as they have not been able to mix with their peers, but I hope you will all agree from this term's newsletter that we have continued to ensure that our students are involved in fantastic learning experiences. Staff have worked very hard and creatively to bring our school and college community together, through joint charity days and other school/college projects.

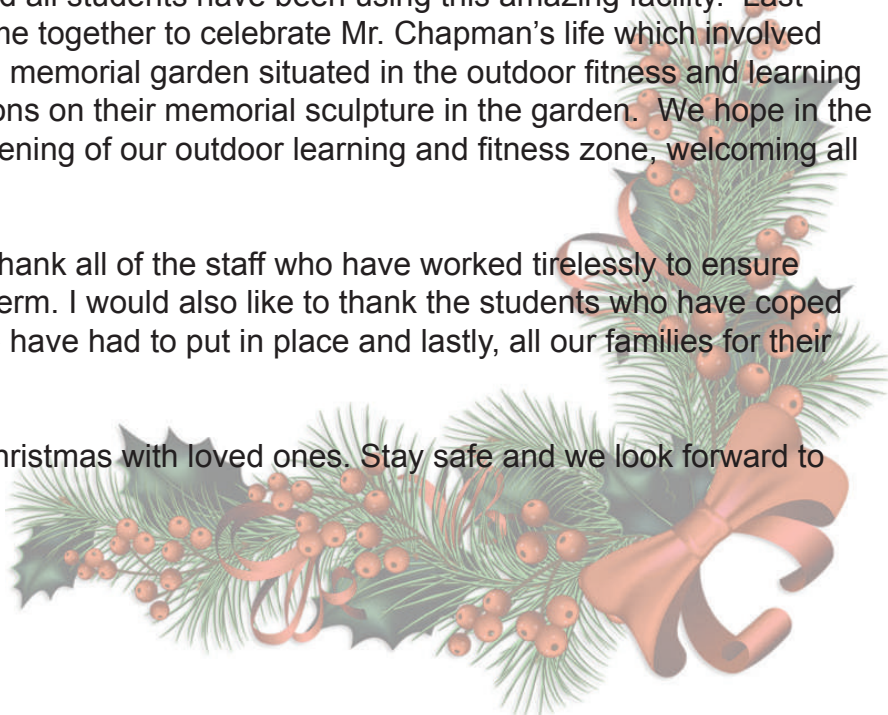

Since our last newsletter we have had two Ofsted inspections. At the Academy the inspector said, 'the ethos and feel you get is really strong and not one you get in every school'. They also reported that personal development, behaviour and attitude was extremely strong. At Catcote Futures, we were assessed to see where we were in terms of progress towards a full inspection. The feedback was extremely positive.

In our last newsletter, we told you about our plans to develop our school field to make it more accessible to all learners by creating an outdoor learning and fitness zone. We are pleased to announce that this is now complete and all students have been using this amazing facility. Last month, the whole Trust community came together to celebrate Mr. Chapman's life which involved creating lots of wonderful things for his memorial garden situated in the outdoor fitness and learning zone. Catcote Futures also hung ribbons on their memorial sculpture in the garden. We hope in the new year that we can have a grand opening of our outdoor learning and fitness zone, welcoming all families to come and visit.

I would like to take this opportunity to thank all of the staff who have worked tirelessly to ensure students transitioned back safely this term. I would also like to thank the students who have coped amazingly with all the changes that we have had to put in place and lastly, all our families for their continued support.

I hope that you all have a wonderful Christmas with loved ones. Stay safe and we look forward to welcoming all students back in 2021.

Lisa Greig
Interim Head Teacher

Children In Need

In November, students in the red pathway took part in the 'Joe Wicks 24-hour challenge' to support Children in Need.

After a well-deserved rest, students completed some mindful activities and watched 'Joe Wicks 5 to Thrive' videos. Yellow pathway completed a bear hunt around our 'Outdoor Learning and Fitness Zone' and participated in various craft and mindful activities. Students baked cakes for the Pudsey picnic, hunted in the trees for the hidden Pudsey Bears and enjoyed doing the Joe Wicks workout.

Catcote Academy and Catcote Sixth Form have raised £264.47 for Children in Need! Thank you for your continued support.

Class 7

Class 7 have been working really hard this year to raise money for charities and to make donations to those in need. As a class, we managed to make £100 for the Alzheimer's Society by raffling a handmade Christmas wreath. We also took part in a kindness advent calendar and donated food and warm clothes to a local food bank.

Eco Schools

Last year, the school gained its Green Flag status. Students have continued their great work this year with activities such as participating in the mindfulness week as part of one of their eco school challenges. We decided to focus our actions on relaxation and happy minds. Students from across the Academy took time out of their day to notice things in their immediate environments. Students participated in varied ways; some listened to relaxing music, others spent time colouring whilst some students took part in different sports.

Students shared their experiences of the week in a short video, promoting their message to everyone.

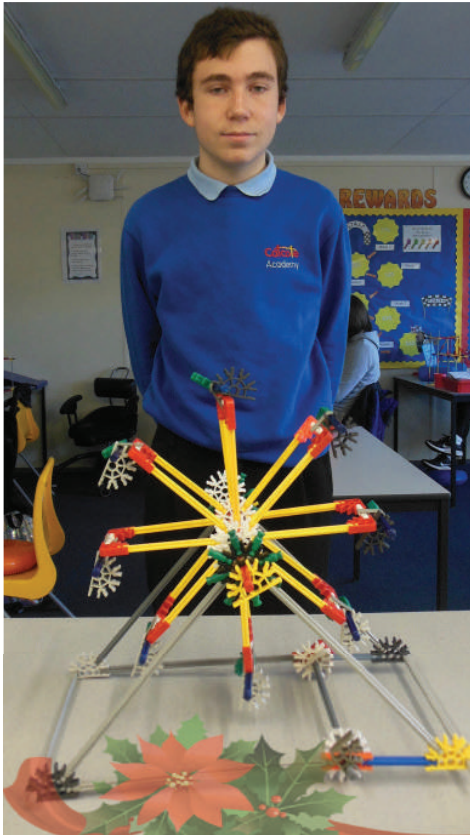

Poppy Carpet

Catcote Academy students made a poppy carpet for Remembrance Day, made from recycled plastic bottles that had been collected this year. Mr Pounder, an Army veteran, says how important it is for schools to teach the students about the wars and the sacrifices people made.

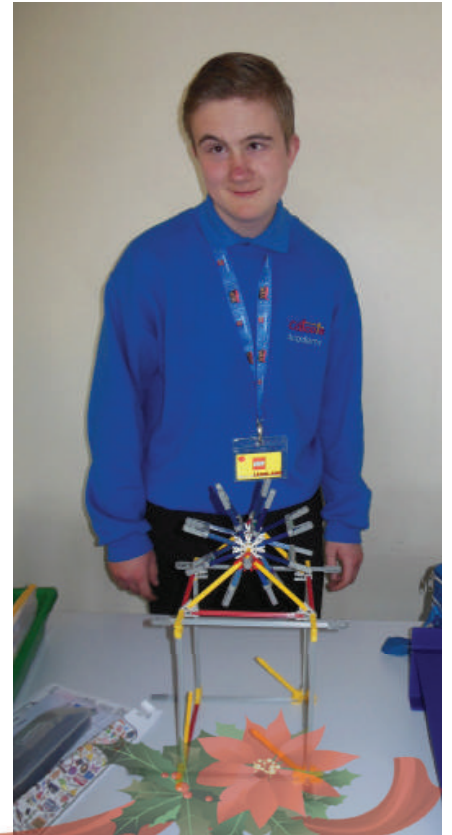

Link 4 Enterprise Skills

In the Autumn term, Link 4 have been practising their CORRECT enterprise skills.

C - creative
O - organised
R - risk-taking
R - responsibility
E - evaluating
C - communication
T - teamwork

We have been very creative by building models with K'nex, and used our problem solving skills.

The Candy Cupboard

This term, students in Link 3 created 'The Candy Cupboard' as part of their Enterprise curriculum. They created some sensational chocolate bouquets and exciting 'Christmas Night-in boxes' to help raise funds for their class. Students discussed what job roles would be needed and applied for the positions. They excelled at managing finances, carrying out market research and being part of a production line. They worked extremely hard and should be very proud of themselves.

Link 3 Home Management Topic

During the Autumn term, students have been learning how to carry out tasks around the home. They have been learning about basic hygiene and the importance of keeping surfaces clean.

Students have discussed what sort of things they would need to do if they lived independently.

They demonstrated excellent laundry skills and developed skills

in relation to ironing. Along with cleaning and repairing their clothes, they demonstrated

their fantastic cooking skills making, cheese cakes, toad-in-the-hole and apple crumble.

Smile Day

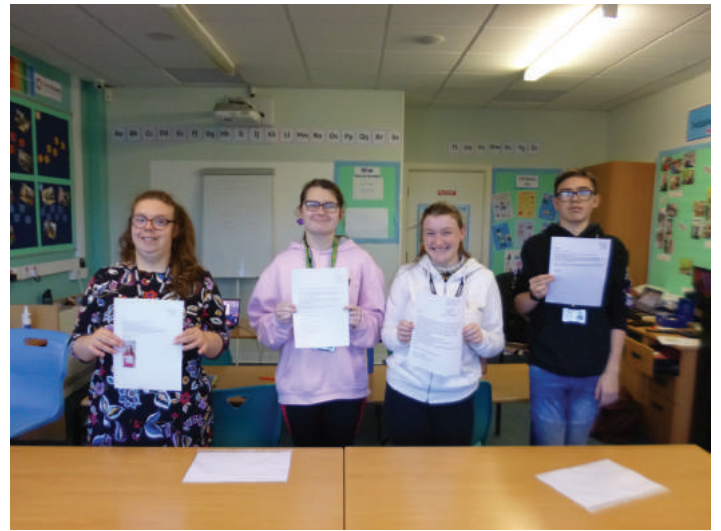

In September, we joined in with 'World Smile Day' to help put a smile on people's faces! Students made some fantastic smiley faces and told some jokes whilst others made some rainbow postcards to say thank you or learnt to sing and sign along to 'You've Got a Friend in Me'.

S4 Lindisfarne Letter Writing

Students have carried on the great inclusion work with Lindisfarne Care Home, relating to others and have become pen pals with several of the residents. Students have gained a greater understanding of how COVID restrictions have impacted on people's mental well-being, in particular the most vulnerable in the community.

The residents have thoroughly enjoyed participating within this correspondence.

S4 - Caring for the area

Students wanted to contribute to their community in their 'Giving' project during the 'Great Dream' initiative. They spent time tidying the communal area around Sixth Form. This enabled our students to process the importance of not littering. This led to great discussions on how young people have a voice and can make a change. One of the students (Adam) wrote a letter to the Director of Neighbourhoods and Regulatory Services at Hartlepool Borough Council about areas of concern in the local community. A response was provided with a list of actions to address the issues that the student raised. Well done Adam, we are very proud of you! The class will be exploring more ways to be confident and have a voice in the community, preparing them for adulthood.

Sports for Champions

Catcote will be holding a virtual event on February 10th which will be delivered by a famous Olympic Athlete of our choice.

They will share their experiences with us in relation to their career. There will be a focus on health and wellbeing.

Students will take part in a virtual exercise following social distancing measures. This will be a 60 second sponsored challenge and sponsor forms will be sent out after Christmas.

The Athlete will then give interactive feedback and will talk about healthy eating, nutrition, diet and will take questions from our students.

We are grateful for this amazing opportunity.

Class 9 Poppies

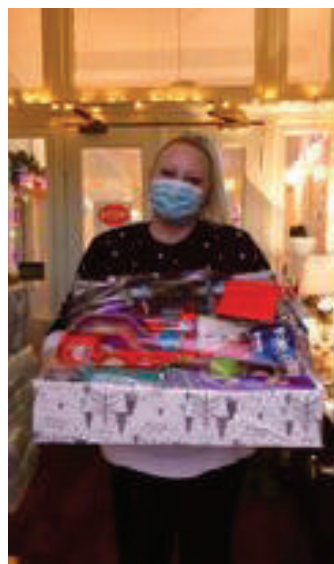

Class 9 created poppies as part of their enterprise lesson.

They raised a whopping £90, which was donated to the Royal British Legion Poppy Appeal.

We are very proud of their efforts.

Care Home Collection

Staff and students from Link 3 wanted to spread some Christmas cheer to others. They decided to collect tea, coffee, biscuits and cakes for residents at Dinsdale and Sheraton Court Nursing Homes as a Christmas treat for their residents. We would also like to say a massive THANK YOU to The Sensory Spot for their very kind donation to this wonderful cause.

STEPS

The students in the STEPs programme have made us exceptionally proud throughout this term.

One of our students has had to learn remotely and has participated fully in all aspects of learning.

Our students have developed key skills especially their levels of independence, computer skills and food technology.

Here is Chloe reading the timetable as part of her independent travel skills.

The Great Dream

The STEPs students have been completing work on the 'Great Dream'.

In order to achieve the 'Relate' aspect, students have reflected upon which staff have had an impact upon their learning journey at Catcote.

Students wrote letters to staff to express their gratitude for all of the support and guidance they have received during their time at the Trust. This task allowed them to showcase their written skills and independence.

The student then went to the local Post Office to purchase stamps and post their letters.

The Post Office lady expressed how impressed she was at how polite and well mannered our students were.

A real credit to the Trust.

Class 2

Students have been working really hard to make lots of festive decorations to spread some Christmas cheer. They decorated the classroom tree and even made decorations for the giant Christmas tree in the hall.

Students also helped to decorate their own Mr Chapman themed T-shirts with waist coats and bow ties.

They also helped to paint bow tie bunting to hang in the memorial garden.

Well done Class 2!

Calcoie
Parents and Friends

Thank you!

Calcoie
Parents and Friends

We would like to thank all our members, both old and new, for their continued support through what has been a very hard year for us all.

Parents/carers have you got 2hrs per half term to volunteer?

If you think you could give some time please get in touch.

We are looking for new parent members, who would like to help us raise much needed funds to help support our students with future projects and equipment.

Stay safe, and Merry Christmas!!

The Snowmen

This term, Students in the Yellow and Blue pathways have been focusing on 'The Snowman' by Raymond Briggs.

Each class have completed some amazing work, related to the story and create their very own snowman.

The Annual SEND award in memory of Mr. Alan Chapman

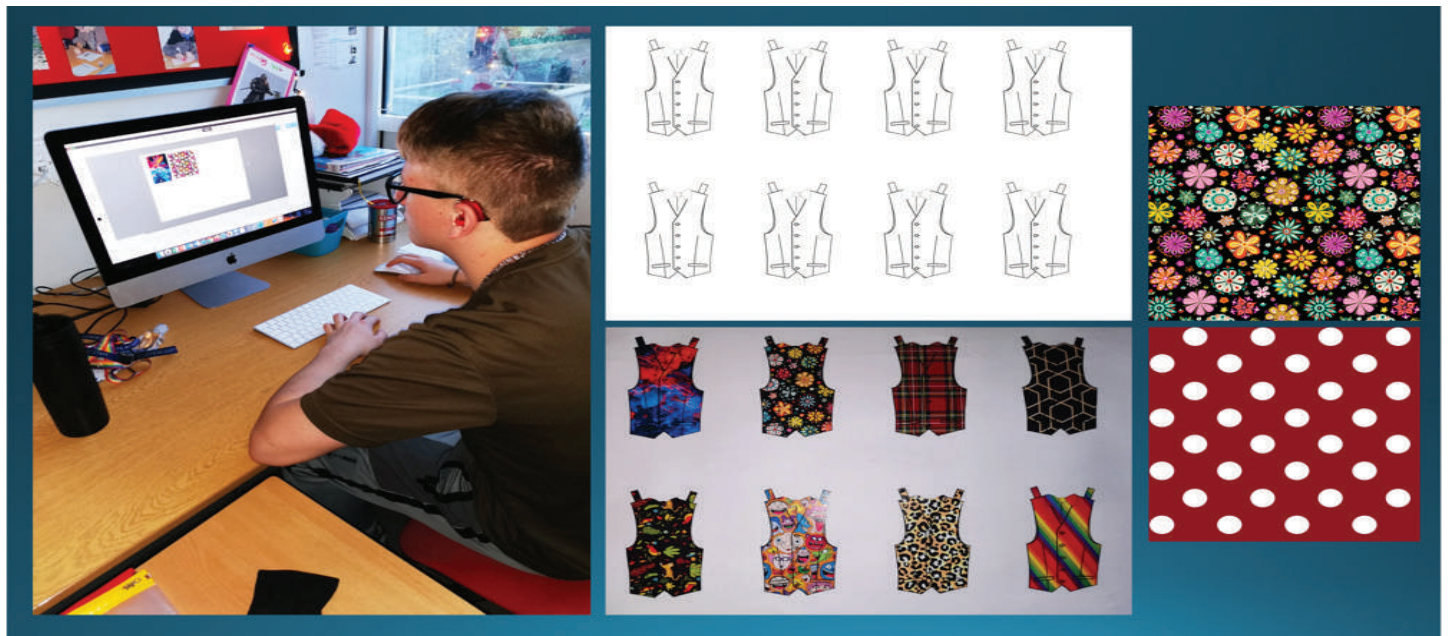

Catcote students were asked to take part in a competition to design the new SEND award in memory of our late Head, Mr. Alan Chapman. This competition was open to all secondary schools in Hartlepool. The award is to be presented on an annual basis to a child, young person or adult. This is in recognition for their contribution in improving the outcomes for pupils with SEND needs.

Sixth Form 2 (S2), led by Mrs. Stephenson, designed a black silhouette of Mr. Chapman demonstrating the qualities that he was well known for, his outlandish dress sense and his love of his “Catcote bairns”.

The final design will be cut out of black perspex and mounted on an oak base with interchangeable waistcoats and crazy designs. Mrs. Chapman and daughter Beth were so impressed, that there are now two categories; the Young Person Award and the Adult/Community Award.

Sixth Form 2 won the Young Person Award and are currently looking forward to the next step in the design process...

Remembrance Day

Students took part in a number of activities to learn about Remembrance Day and what it means. Activities such as making poppies and wreaths, decorated biscuits, performing Remembrance Day poems, creating silhouette pictures and suncatchers.

Macmillan Coffee Morning

Every year, Catcote join in with Macmillan's Coffee Morning and this year was no different (although we couldn't have our usual cake sale).

Students designed and created posters and made their own sweet treats to participate in the coffee morning and to raise money for a much loved charity.

Big Soup Share

In October we joined in the Big Soup Share. Students in Class 1 and 2 explored different vegetables and used them to make great

prints. Whilst other students helped to make soup to share with each other.

Diwali

Students explored Diwali this year whilst looking at winter celebrations.

Students looked at how Hindus celebrate Diwali and what it

meant. Students joined in by creating clay Diwali lamps and exploring lights that lit up to sounds. They also learnt an action song whilst celebrating their own Diwali!

Elf Day

We joined in a new fundraising event this year to support the Alzheimer's and Dementia Society. Everyone had the opportunity to attend school in a Elf fancy dress costume or to wear something christmas related. All classes enjoyed putting up and decorating our classroom trees.

Roald Dahl Day

This year we celebrated Roald Dahl Day. Students read different stories and watched some films inspired by the books. Students in Class 2 made their own marvellous medicine and in Class 4 students made their own Willy Wonka inspired chocolate bars. Class 7 learnt about The Enormous Crocodile and Sixth Form 1 made some tasty Wonka hot chocolate.

Class 10

Class 10 helped Mr Pounder harvest the fruit and veg as part of their forest school curriculum. Which developed numerous life skills lessons.

Makaton

This year in, Yellow and Blue pathways, we have kicked off our Makaton journey by training some staff to Level 4. All our students are benefiting from this, learning new signs, improving their communication and producing some amazing videos! Students recorded Remembrance Day poems, learnt 'Any Dream Will Do' and Class 7 performed a super rendition of 'It's Raining Men'.

We were also super impressed with Class 8's performance of 'You've Got a Friend in Me'. All students involved, learnt to sing and sign to 'I'll Be There' by Jess Glynn. Students have had a great time focusing on the Performing Arts aspect of the curriculum and have thoroughly enjoyed watching their own performances. We have some superstars in the making.

Some of these fantastic videos are on our Facebook page. Please check them out if you haven't done so already.

Accreditation Success

One of the sad consequences of the Covid-19 virus, is not being able to carry out many of the exciting activities which have been planned throughout the year. One such regular event on the Catcote Futures calendar is the thrilling Annual Awards Event which would normally take place in the wonderful surroundings of Hartlepool Art Gallery. This event is a celebration to recognise and reward the amazing achievements of our learners and the success they have had with their accreditation. As we all know, traditional classroom education was dramatically disrupted following the lockdown from March. However, many of our young people had already been working very hard towards their accreditation and still had more work to do to enable them to achieve their goals.

I can now report with great pleasure and pride, that due to the very hard work of our learners, their parents and carers and our Teachers, once again we have had 100% success for all accreditation, across all awarding bodies. This really is an amazing achievement through very difficult circumstances and a brilliant testament to the dedication and hard work of all concerned.

Sadly, our award celebrations are missing but our sense of pride and achievement are as clear as the smiles on our faces.

Huge congratulations go to all for another very successful year.

CF1 welcomes new pupil

CF1 were delighted to welcome new student Caitlin into the class in October this year. Class teacher Pete said “Caitlin came from the Academy and has made a huge impact in the classroom! She is an absolutely wonderful young lady who has fit right into CF1. She has an infectious laugh, a beautiful singing voice and likes nothing more than to sit and listen to stories, which is one of our favourite things to do in CF1”

Pete continued, “Caitlin has been a revelation and we are very proud of her for fitting in so quickly. Understandably, she was a little timid when she first came but she has soon made friends with us all and is showing so much progress! She is very keen, always tries her best to do her work and enjoys doing jobs around the college, where appropriate. She loves singing duets with me and competes to be the loudest voice in the class! She is an absolute ray of sunshine in the classroom and I can’t wait to see how well she does!”

CF1 are blinded by the lights

This term saw a HUGE investment in blackout blinds in CF1. This has meant that the classroom can be plunged into absolute darkness so the students can benefit from specialist lighting and neon work.

The students are responding exceptionally well to the new super sensory environment. Teacher Pete Wells said “The difference that the blinds have made is staggering. Everything feels much more intimate and special. It really focuses the students’ attention on the interactive whiteboard when telling stories or doing switch work and has allowed us to have cool things like firework displays, discos and extremely soothing and therapeutic massage. The new lights and blinds are also a handy way of separating activities. Students are now fully aware when one activity has ended and another has begun due to the massive contrast in class. It’s incredible how a seemingly small change to the classroom has had such a massive impact”.

NHS

This half term, the students in CF3 have helped some of our friends in the NHS. The students have helped to brighten up Ward 24 at North Tees Hospital. The students all helped to make laminated sensory Christmas pictures (that can be wiped clean), which have been displayed within the ward. The staff on Ward 24 were so pleased with the art work and sent us a lovely photograph, showing our student's work up on display.

Mrs Santa Claus visits CF1

As part of the Trust-wide great dream initiative, students at Catcote Futures were asked to make festive videos to share among the classes. Step forward super CF1 student Jayne who did an amazing job being Mrs Santa Claus from the Nat King Cole classic Christmas song, "Mrs Santa Claus!"

Together with her on-screen husband, brilliantly played by Fraser, the pair make for a fabulous married couple! The rest of the students in class played the parts of various toys, presents and

reindeer which was the icing on the Christmas cake! The video is fabulous and can be seen on the Catcote Futures website along with the amazing videos from other classes. Please take your time to watch them, they are great.

Catcote Futures - Remembering Mr. Chapman

As we marked the first anniversary of the passing of Mr. Chapman, we decided this should not be a sad occasion as this is the last thing he would want! We all wanted to think of him with fondness and mark the enjoyment and humour he brought to the Trust and everybody he met.

We all have such fond memories and stories of Mr. Chapman and we wanted this day to be filled with fun, laughter and to be a celebration of his life.

All students tied brightly coloured ribbons around our 'Tree of Reflection', wrote postcards remembering the things that make us happy and each class made their very own 'happy and flamboyant' scarecrows. We are sure Mr. Chapman would have loved it!

Most Inspirational Presentation

During November, Catcote Futures took part in the annual Talentino Conference which offers the opportunities to celebrate the triumphs of Work Related Learning in Special Schools and Colleges from across the country.

Catcote were involved in 3 separate presentations which were very well received.

This year, in memory of Alan Chapman, a special annual award was launched for the most inspirational speaker or presentation. The recipient of this award was decided upon the votes received from the delegates of the 4-day online event. There were 50 presentations watched by more than 750 delegates.

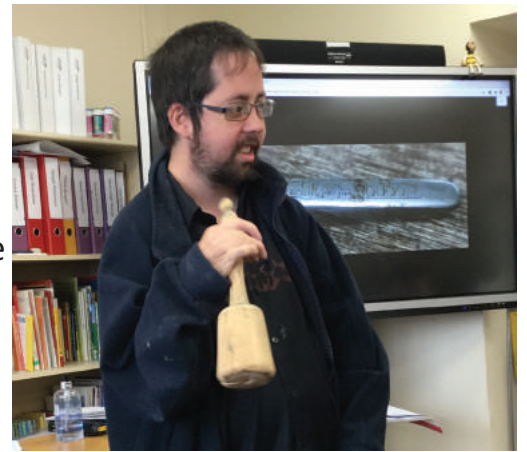

We are very proud to say this award was awarded to our very own Amanda Metcalf for her inspirational presentation on pre-supported Internships. Amanda is our Work Related Learning Lead, Enterprise Coordinator and runs Catcote Futures dedicated employability pathway 'STEPS'. Her presentation touched the hearts of the delegates with the learners own personal accounts of their experience on the STEP's programme and the real opportunities they are working towards to achieve their aspiration and goals.

Well done Amanda.

Not so Horrible History

This term, CF7 have been looking into Hartlepool's glorious and eventful past! The students began this journey when looking at the history of Hartlepool for a weekly college-wide challenge. This really caught their imagination and inspired them to look further into their important local history. The class have had lots of fun looking at old household items such as an old washing dolly or posser, and a wooden potato masher (shown in picture) comparing these to what we use now.

They also looked at the different periods of history and researched how our houses have changed from the stone age, living in one room and eating Woolly Mammoths, to fighting in a Roman Fort and then ruling in a Medieval castle. They have looked at images and models and completed quizzes to see what they know and how well they would survive as a Viking.

Remembrance Day

To enable students to interact with each other in different classes, Catcote Futures has been completing a weekly college challenge, set each week by a different class. CF4's challenge was around raising awareness and understanding of Remembrance Day and honouring the families of those who have given so much.

Each class was given the challenge of creating a display for outside the college, to honour Remembrance Day. All classes got busy and created some beautiful and very poignant designs. One particularly impressive design comprised of poppies made from recycled bottles. These were painted red to honour the fallen soldiers and some were painted purple in honour of the fallen animals.

These moving and eye-catching displays were exhibited to show our respect and support for the heroes of Hartlepool and beyond.

The Magic of Musicals

This year, has been all about the razzle dazzle in CF1 as they learn about the musicals. The year started with 'Joseph and his Amazing Technicolour Dreamcoat' and had a wonderful time exploring colours, Egypt, the Bible, feast and famine and of course, the wonderful world of dreams. This led to lots of fun with sand, camels, pyramids and mummies as well as some relaxing times with massage therapy, enabling the students to have very pleasant dreams.

Class teacher Pete Wells said "The students really got into this story and were absolutely swept away by the songs. It was wonderful to see them enjoying their favourite tunes and the story we had written, ended with a gloriously upbeat version of "Go go go Joseph".

Following Joseph, just in time for Halloween, the class studied the brilliant prequel to 'The Wizard of Oz,' the musical 'Wicked!' This more modern musical had some really exciting upbeat songs that the students got to know and love! It was great fun learning about witches and wizards and getting to fly around the classroom on broomsticks!

On the lead up to Christmas, the class studied "The greatest showman." This musical was extremely popular with the class and they had a whale of a time practising their circus skills, visiting the Queen, and of course, singing and dancing to the iconic "This is me!"

Class teacher Pete said "It was great adapting The Greatest Showman for our brilliant students! Closing out the term with the topic of the circus was absolutely fantastic for encouraging movement and performance and the music is just great! At the end of the story we got our wonderfully colourful parachute out and made Barnham's big top. Everyone in the class absolutely loved this story, the only disappointment I feel was that the teacher doesn't look quite enough like Hugh Jackman. Well, you can't win them all!"

A Little Kindness Goes a Long Way

A random act of kindness, no matter how small, can make a tremendous impact on someone else's life. This is what happened with the joint effort of donations from Poundland (Middleton Grange) and Catcote Futures. Using the amazing donations that Catcote Futures received from Poundland, students made up craft packs which they then donated to Harbour Support, who support victims and families of domestic abuse. Catcote Futures would like to thank Poundland for the continuous support and donations throughout the year which has enabled us to continue our enterprise endeavours. This has helped to raise funds to further develop the use of enterprise and employability skills, enabled students to receive gifts for their hard work and also empowered our students to support others.

Upcycling and Fundraising Fun

Our upcycling project continues as we have used recycled materials to restore a set of drawers and a tea trolley. We have also upcycled plant pots for our sensory garden using materials such as old tiles and nail varnish as part of the 'Jazz-up your Outdoor Area' challenge. Our thanks to the 'Dutch Garden Centre' for donating the bulbs and compost.

As part of the garden challenge and to develop our independent skill, we made a scarecrow and

birdfeeders from cereal and oranges. We know the birds enjoyed them as we watched them in our sensory garden. We have also been making our own hot drinks, pancakes,

breakfast wraps, waffles, doughnuts, scones and cakes.

Christmas Enterprise

With Christmas rapidly approaching CF8 have been focusing on their enterprise work, in conjunction with life skills. They have been practicing their ironing skills by ironing pillow cases and turning them

into Santa sack. This included learning the process of producing transfers and using the heat press.

CF8 have also been making Christmas Wreaths, both ornamental as well as foliage. Practising their employability skills by following instructions and evidencing the enterprise commandments by completing their enterprise recording diaries. All the orders coming into college and Facebook CF8 made a staggering £404.

Enterprise

Enterprise is extremely important to us at Catcote Futures. We feel that our learners acquire great skills through enterprise and even have our 'Ten Enterprise Commandments' on display in every classroom!

This year, classes at Catcote Futures have had to adapt to continue their Enterprise projects, and they have adapted well. Over the course of this term, classes have worked in pastoral groups to create a wide range of items to sell, being careful to sell their products in a variety of COVID safe ways! From using our Facebook and social media, to creating a brochure to send out. The classes have made brilliant Christmas decorations and gifts, experimenting with new techniques such as resin and the transfer machine, which has left us with some brilliant items shown below.

All students have been able to join in across the college, working in woodwork, horticulture and within the classroom.

The college also gave back to Poundland in Middleton Grange shopping centre. Poundland have been making donations to Catcote Futures for several years, providing us with lots of produce, which we use to help our Enterprise. The students have given something from each class to Poundland to thank them for the help over the years.

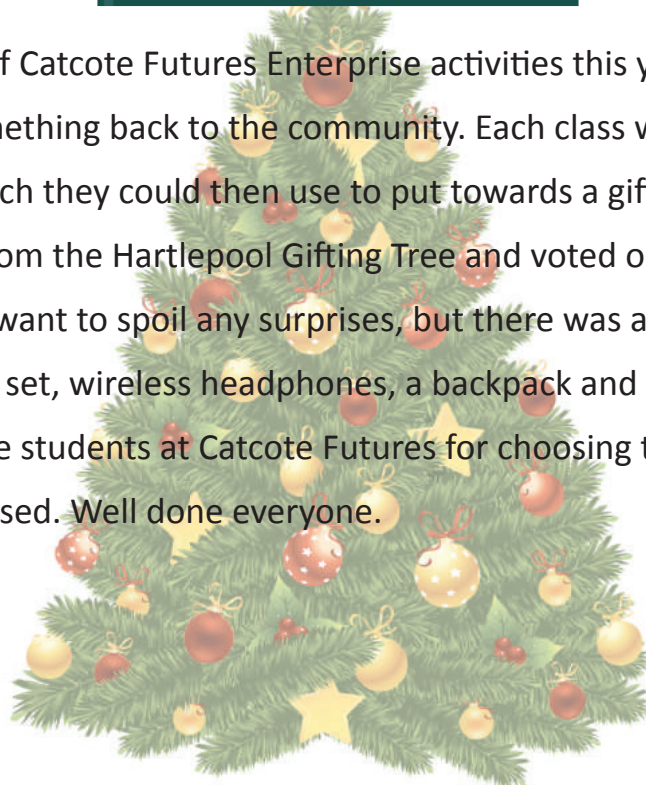

In total, the college has collectively made a grand total of £2,545.95 through all of the enterprise projects which have been taking place this term. Of course, this money goes straight back into college and this year, included an extra special Christmas meal for every student, to thank them for their hard work and also to support local businesses in Hartlepool at this difficult time.

We would also like to give a massive thank you to everyone who has supported us so far and in the future.

With the huge success of Catcote Futures Enterprise activities this year, students decided they wanted to give something back to the community. Each class was allocated £10 from the enterprise fund, which they could then use to put towards a gift for someone in need. Each class chose a tag from the Hartlepool Gifting Tree and voted on the gift they wanted to give. Now we do not want to spoil any surprises, but there was a great range of gifts to donate including a razor set, wireless headphones, a backpack and a super-soaker!

We are very proud of the students at Catcote Futures for choosing to donate these gifts from the money they have raised. Well done everyone.

Sponsored Walk

At Catcote Futures, our super students have been getting fit in the lead up to Christmas! Our 'Walking in a Winter Wonderland' challenge saw all classes choose their own distance to 'walk' before the end of term and then, gaining sponsorship for each mile they walked. This linked in to our Trust-wide 'Great Dream' initiative where staff and students are asked to help others. Through this healthy and fun exercise, the students have not only raised £1407.60p (and money is still coming in) for college, but have also enjoying being out and about! All money raised will be used to support our students and their enrichment activities.

The challenge was specific to each class, with some students reaching the magnificent total of 35 individual miles and a class reaching the 100-mile total. All the students involved have worked extremely hard and should be very proud of themselves.

Well done one and all!

With the pesky COVID pandemic we have had a very different year at Catcote Futures. Where we normally pride ourselves on our innovative, wholly flexible timetable, this term students have had to stay class-based in their

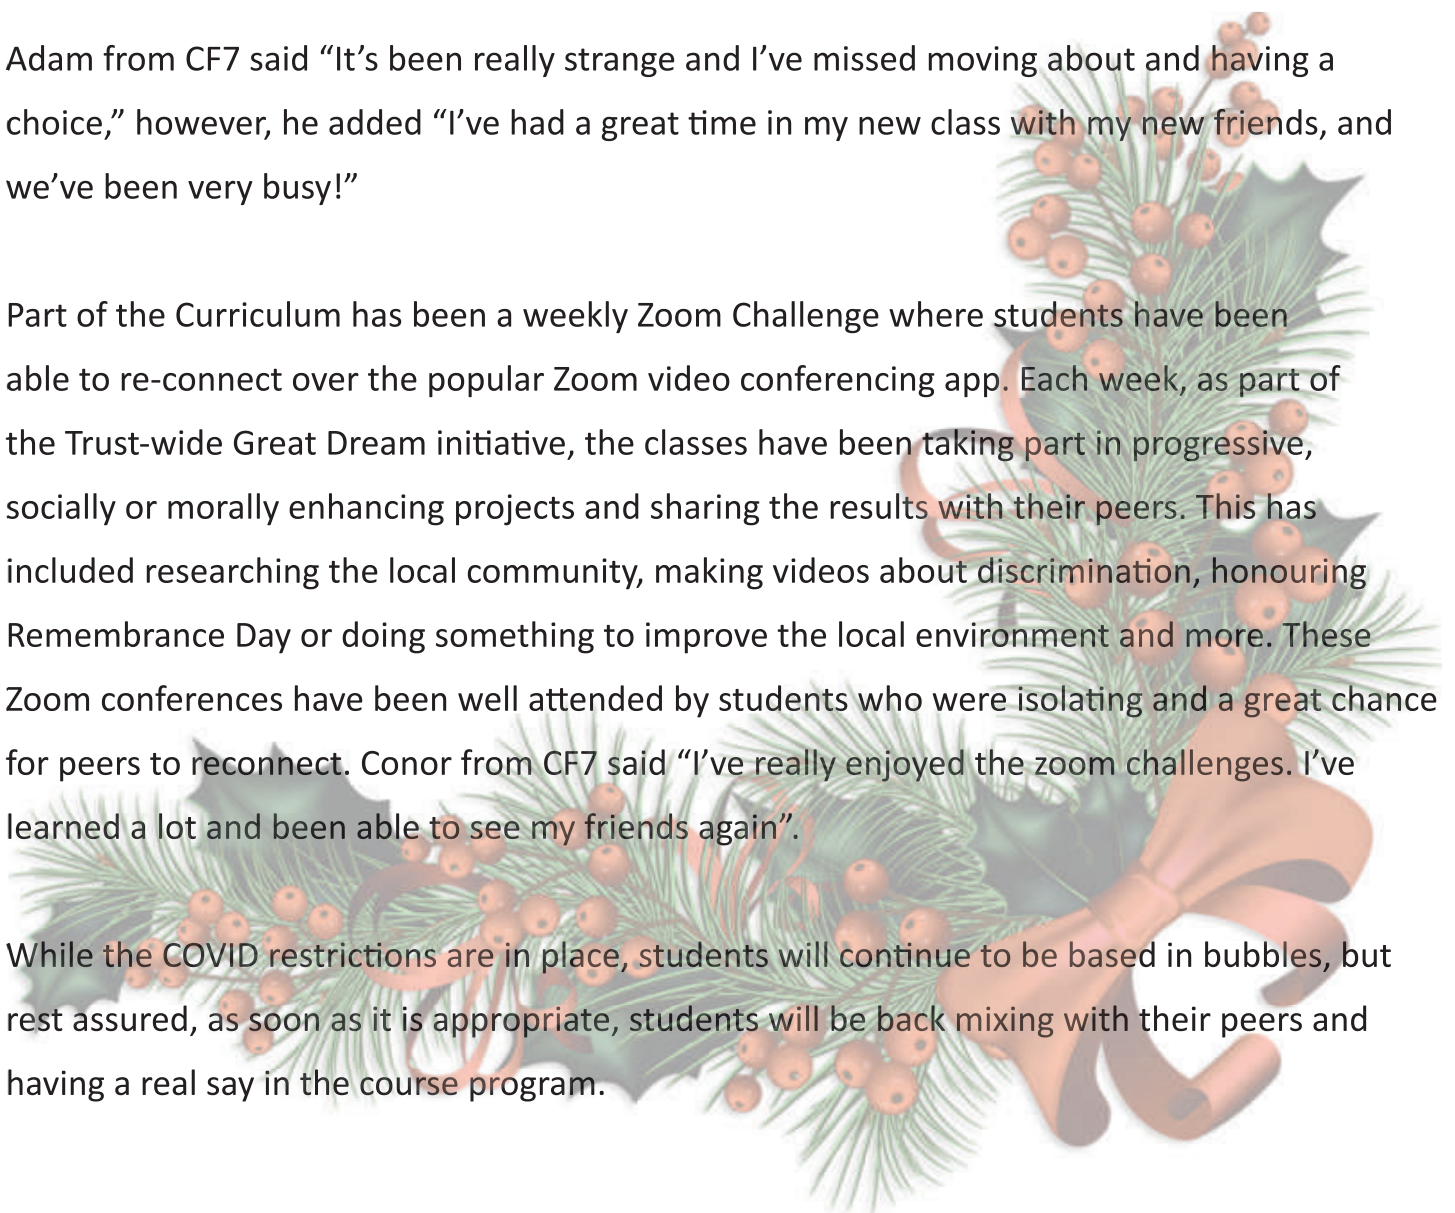

bubbles. Staff have been following a recovery curriculum, this curriculum was first suggested by Professor Barry Carpenter, looked at sensitively reintroducing learners with special needs back to education, albeit through a very different way of working. The recovery curriculum consists of five pillars including repairing relationships, re-establishing a sense of community, identifying gaps in learning, re-establishing ways of learning and examining students' own needs.

This approach has meant that student anxieties have been addressed, everyone has been kept safe and meaningful learning has still been able to go ahead.

Adam from CF7 said "It's been really strange and I've missed moving about and having a choice," however, he added "I've had a great time in my new class with my new friends, and we've been very busy!"

Part of the Curriculum has been a weekly Zoom Challenge where students have been able to re-connect over the popular Zoom video conferencing app. Each week, as part of the Trust-wide Great Dream initiative, the classes have been taking part in progressive, socially or morally enhancing projects and sharing the results with their peers. This has included researching the local community, making videos about discrimination, honouring Remembrance Day or doing something to improve the local environment and more. These Zoom conferences have been well attended by students who were isolating and a great chance for peers to reconnect. Conor from CF7 said "I've really enjoyed the zoom challenges. I've learned a lot and been able to see my friends again".

While the COVID restrictions are in place, students will continue to be based in bubbles, but rest assured, as soon as it is appropriate, students will be back mixing with their peers and having a real say in the course program.

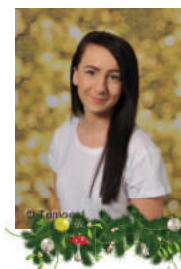

Farewell and Goodluck

Mrs Gooding has worked as a cleaner for the Trust for 7 Years. She will be greatly missed and we wish her a very long and happy retirement.

Mrs Matthews has worked as a teacher at the Academy for 8 years. She is moving across to High Tunstall to be an Assessment and Intervention Lead. She will be greatly missed by all the students and staff and we wish her every success for the future.

Mrs Vitalie has worked across the Trust for 13 years. She is currently working as a teaching assistant at Catcote Futures and will be leaving us to start her own childminding business. We wish her every success for the future.

Mrs Lamb has worked with us for 19 years and is retiring next term to spend quality time with her family. We will miss her lovely welcoming smile on Reception. We would like to wish her a very long and happy retirement.

Miss Murphy has worked as a teaching assistant within the Academy for 5 years and is leaving us to work at Exmoor Children's home. She will be a big miss but we know she will be great asset to the team at Exmoor.
