

Kim's experience and journey

One of STEPs previous students, Kim Waring came into the Employment Training Hub based in the town centre, to talk to our STEPs learners about her journey from STEPs, into a Supported Internship and then into paid employment. She talked about now living independently and how she budgets her wages for the month. Kim has worked at Mc Donald's for nearly four years now after spending time on her work experience as part of her STEPs/Internship programme. The students were all engaged in the presentation and asked Kim lots of questions that she confidently answered. Thank you for coming and sharing your journey with us Kim, we will be sure to invite you in next year too!
